

HASNAT SHABBIR

+447555857820 | hasnat5124@gmail.com | London, UK

Summary

Frontend-focused Software Engineer with **5 years of experience** building responsive, scalable web applications using **React, Next.js, TypeScript, JavaScript, Redux, HTML5, CSS, and modern UI practices**. Experienced in production dashboards, SaaS interfaces, API-integrated applications, reusable components, real-time user interfaces, responsive layouts, performance-focused UI delivery, and clean maintainable frontend code.

Work Authorization: Full right to work in the UK (Graduate Visa valid until Feb-2028, no sponsorship required)

Skills

Frontend: React, Next.js, TypeScript, JavaScript, Redux, HTML5, CSS, Bootstrap, responsive design

UI Engineering: Reusable components, dashboards, SaaS interfaces, API integration, real-time UI, cross-browser interfaces

Quality: Debugging, frontend performance, maintainable code, usability, accessibility awareness, code reviews

Backend Awareness: REST APIs, GraphQL APIs, Node.js, .NET APIs, authentication flows, WebSockets

Cloud Awareness: AWS, Docker, CI/CD, production deployment support

Experience

CabDespatch LTD | Kent, England

Software Engineer | 08/2024 - Present

- Build and maintain React web dashboards for taxi operators, supporting booking workflows, dispatch visibility, ride management, and operator-facing SaaS tools.
- Integrate frontend applications with .NET backend APIs and SQL Server-backed workflows for booking, ride updates, dispatch coordination, and operational data.
- Develop responsive, production-ready UI features with attention to usability, performance, maintainability, and reliable release behavior.
- Support real-time interfaces for taxi system updates using socket/SignalR-driven status changes and live operational workflows.
- Collaborate with product and engineering teams to deliver customer, driver, and operator-facing features across web and mobile touchpoints.

Fabulous Technology Solutions | Sialkot, Pakistan

Software Engineer | 02/2022 - 08/2024

- Built frontend features for production web applications using React, Next.js, JavaScript, TypeScript, HTML, CSS, Redux, and API integrations.
- Developed reusable components and UI patterns that improved consistency and reduced development effort across multiple projects.
- Created responsive dashboards and customer-facing interfaces with a focus on clean UI implementation, maintainable code, and usability.
- Integrated frontend applications with REST/GraphQL APIs to support data-driven workflows, real-time features, and interactive product screens.
- Promoted to Team Lead in 2024, supporting delivery, code reviews, and frontend implementation quality across a team of 10 developers.

Logics Yard | Lahore, Pakistan

Associate Software Engineer | 07/2021 - 02/2022

- Developed responsive web pages and React components using HTML, CSS, JavaScript, and API integrations.
- Participated in debugging, troubleshooting, and code reviews to maintain frontend quality and reliable browser-based experiences.

Projects

GPHTEST / Glacier Peak Holistics Test Platform | React Dashboards & Analytics UI

- Built multi-role React dashboards for admins, sub-admins, technicians, and customers to manage registrations, barcode operations, sample tracking, reports, and result delivery.
- Developed analytics interfaces covering workflow status, registration trends, geographic distribution, customer insights, flagged reviews, and operational reporting.
- Created report submission, report regeneration, barcode management, export workflows, and reusable UI patterns for a high-volume production platform.

Healthhop | Healthcare Dashboards

- Built React-based dashboards and API-integrated workflows for providers, patients, and administrators.
- Supported user-facing interfaces connected to payment, notification, messaging, and account workflows.

Topics Chat | User-Facing Communication UI

- Developed user-facing screens for messaging, multimedia sharing, personalised feed behavior, push notification flows, and communication workflows.
- Contributed to mobile-friendly interaction patterns for audio/video calling, communities, and social platform engagement.

Education

University of Hertfordshire | Hatfield, England

MS Advanced Computer Science | 09/2025

University of Sialkot | Sialkot, Pakistan

BS Software Engineering | 08/2022
